RETURN RECEIPT REQUESTED

Ms. Gail Schmardebeck
3MR Corporation
1735 South 1045 West
Salt Lake City, Utah 84104

Dear Ms. Schmardebeck:

On August 25, 1993 we received your Notice to conduct mining activities on your Dumpy-White King mining claims located in T. 1 S., R. 9 W., Section 18. The Notice was assigned serial number U-72259, and was accepted by this office on September 20, 1993.

A recent inspection of your claim area indicates that your quarry has become littered with metal trash and burned, unidentifiable material, which could be hazardous waste. In addition, several pallets, metal barrels, metal hoops, pieces of wire, steel, and other trash are scattered over the quarry floor.

Federal regulations require that all mining operations, including those filed under a Notice, shall be conducted to prevent unnecessary or undue degradation of the Federal lands and shall comply with all pertinent Federal and State laws, including but not limited to the following, as cited at 43 CFR 3809.2-2(c), under the heading of solid wastes: all garbage, refuse or waste shall either be removed from the affected lands or disposed of or treated to minimize, so far as is practicable, its impact on the lands.

Your operation is creating surface disturbance greater than what would normally result when an activity is being accomplished by a prudent operator in usual, customary, and proficient operations of similar character.

Please contact this office within 15 days of receipt of this letter to set up a schedule for the clean-up of all of the aforementioned trash and litter associated with your mining activities, or we will consider you to be in noncompliance with Federal regulations at 43 CFR 3809. All operators who have established a Record of Noncompliance are required to submit a Plan of Operations and post a bond for 100% of BLM's estimated cost of reclamation, including administrative costs, for any future mining operations.

If you have any questions, or require additional information, please contact Michael Ford of my staff at (801) 977-4300.

Sincerely,

- Margaret Wyatt
